## ➤ Our President

“Every generation must strive to leave its mark on its nation’s history. But it never does this alone. Working hand in hand with those who went before us and recognizing the values that our forefathers stood for; the values they lived and died for, we must now play our role responsibly and make our mark in our nation’s history.”

## Act Now. Make a Difference

**Welcome** to the volunteer movement of the National Restoration Party. Congratulations for taking the first step towards a commitment for a better Zambia.

Our vision is to build a nation in which every person regardless of age, gender, tribe race or

political affiliation can rely on quality healthcare, quality education and quality infrastructure as they aspire to attain their full potential. We believe that such a vision can only be realized through honest, transparent and efficient government made up of quality leaders determined to lead by example and to place national service above self-interest at all times.

We don't just want you to be a member of NAREP, we want you to make a positive impact in the community that you are a part of.

## Our Vision

**Under the NAREP vision, Zambia shall be:**

**A top 10 global producer of biofuels and new energy**

**Africa's number one agricultural producer**

**A major regional commercial centre**

These developments will provide free or affordable access to quality healthcare, education, water, sanitation and a good road network for every Zambian. NAREP believes that these developments can be achieved within 10 years with leadership that places excellence, integrity, responsibility and service above self-interest.

## Our Strategic Goal

NAREP will build a permanent membership of 750,000 active and committed supporters in all communities across the country

**Achieving this goal will require us to commit to implementing 4 disciplines:**

- **Maintaining** clarity on the objective and the deadline (750,000 active members by December 2013)
- **Diligently Implementing** measures that will guarantee success (weekly meetings and simple projects)
- **Keeping** a scorecard (using regularly updated charts to show our progress)
- **Being** accountable (holding weekly status meetings and filling progress reports).

## ➤ Our Philosophy

NAREP believes in the pursuit of excellence through dedicated service to people. In this pursuit we commit ourselves to the development of quality leadership at all levels of society to enable our people to live dignified lives and to realise their full potential.

## Our Motto

### “A heart for the people”

Our motto reflects our commitment to keeping people permanently at the centre of our concern. We believe that quality leadership must be based on values that support the attainment of a hard working, creative and morally upright society. We believe that such a society will form the basis upon which people can realise their natural, God-given potential.

## Our Values

We believe in value-based leadership. We believe that the following core values are essential to such leadership:

**Excellence | Integrity | Responsibility | Service**  
**Equity | Humility | Commitment | (Sense of ) Community**

We believe that actions on a foundation of these core values will produce positive outcomes for the economy and society and will facilitate the realization of our bold vision for Zambia. We seek to ensure that a minimum standard of living is established and maintained for every citizen, while minimizing the cost and increasing the efficiency of governance. We believe that great leaders are most effective when they inspire others to strive to achieve their full potential. We commit ourselves to promoting the values of quality leadership in all areas of society.

## Our Objectives

**Our main aim** is to restore value-based politics in Zambia by transforming the mindset of our citizens and truly empowering every zambian.

We offer a bold and ambitious vision to attain the prosperity that should serve existing and future generations at every level of society and in every part of our country.

The task is ambitious but we have no doubt that with your help, it can be achieved.

### *It's not just about winning elections*

Elections in 2016 are only a stepping-stone towards the greater goal of transforming our national mindset and setting new standards of personal and collective responsibility. Such a task requires us to promote and sustain excellence and integrity as the basis of all our actions and interactions through visionary leadership.

## » Our Manifesto

### Theme:

Under a NAREP administration, Zambia will be:

- A top 10 global producer of biofuels and renewable energy
- Africa's top agricultural producer
- A major regional commercial centre.

### Outcomes:

NAREP's development plans will result in the following outcomes:

- 500,000 new jobs and enterprises each year
- 20 per cent flat rate of tax for every citizen
- Titled land ownership for every Zambian family

## Our Manifesto

### Focus:

Private sector-driven economy with government being directly responsible for investing in 5 focal development sectors:

**Health | Education | Infrastructure | Empower | Security**

### Funding:

Various sources of finance will be relied upon to develop the programmes that NAREP intends to pursue over the next few years. The main sources of funding will include the following:

- An infrastructure tax for the mining sector
- Limited use of national reserves as a guarantee on major infrastructure projects
- Concessional infrastructure loans from development finance institutions
- Financing mechanisms under global environmental finance initiatives
- General revenues through improved collection

## ➤ Steps to take on becoming a NAREP Member

### Step 1: Identify NAREP in Your Area

- Identify other NAREP members in the community in which you live
- Determine whether they meet regularly
- If there are no other members or they exist but do not meet regularly, proceed to Step 2.

### Step 2: Organize Weekly Meetings

- Meetings to take place once a week
- Each person to bring 2 new people to each meeting
- Each meeting to discuss 3 items
  - A simple community project
  - How funds will be raised for that project
  - One of NAREP's core values

## ➤ Steps to take on becoming a NAREP Member

### Step 3: Mobilize Your Community

- Carry out the simple community projects
- Carry out door-to-door sensitization
- Distribute NAREP materials

## Get Involved Now!

When you sign up to membership, you commit to living up to these commitments and to the NAREP values.

Remember that your role as a NAREP member is to be relevant to the community.

Each meeting should start on time and end on time. As far as possible the meetings should be held at the same time each week (except in cases of unforeseen circumstances, like a sudden funeral).

Each NAREP member should make sure that they are fully acquainted with this NAREP Handbook.

Don't wait for someone else to do something.
